

Learning Styles

1. *Directions: Read about the three learning styles (LS) below. Copy each definition for your notes. You only need to copy the what's in purple.*

Learning Styles

Visual- students learn by using their eyes to see information

Auditory- students learn through listening and hearing information

Tactile- students learn by touching or physical engagement with Information

2. Which learning style best represents you? Provide examples of how you learn best using this learning style. Please answer in a complete sentence.
3. Click on the following link to access the learning style inventory:
<http://www.educationplanner.org/students/self-assessments/learning-styles-quiz.shtml>

Read each question carefully. Do not hit the back button or it will make you start the inventory over

4. Write down your results after you complete the inventory. Ex) Auditory 35%, Visual 50%, Tactile 15%
5. List three strategies you can use utilizing your LS that can *help you learn better.*
